Subject: RTI v. Abbott - request for production

Dear Paul and Abby,

With regard to Dr. House's calculation of damages, please produce the following documentation or information that was either referenced at Dr. House's deposition, and/or that relates to his calculation of damages, and that in either case is responsive to previously served document requests:

- (1) How the "applied overhead" values in the "2000 absorption calculation.xls, 2001 absorption calculation.xls, and 2009 Q3 Absorption.xls" spreadsheets were calculated, and the underlying cost data (components) used to calculate those values. The referenced spreadsheets were produced on 2/19/10 without Bates label numbers. [These are spreadsheets that were created by RTI and provided to Dr. House. The "2000 absorption calculation.xls" is located at RTI188424; the "2001 absorption calculation.xls" is located at RTI188426; the "2009 Q3 Absorption.xls" is located at RTI188422.](#)
- (2) How the Overhead Costs in the COGS history - Locke.xls spreadsheet (produced as RTI187697-719) were calculated, and the underlying cost data (components) used to calculate those overhead costs. [Again, these are spreadsheets that were created by RTI and provided to Dr. House.](#)
- (3) The COGS (Cost of Goods Sold Analysis) history for 2000-2001 (analogous to the COGS history - Locke.xls spreadsheet referenced above). [The history that Retractable has on COGS history for 2000 to 2001 is the information in the spreadsheet identified in \(4\) below: RTI188045_CONFIDENTIAL.xls. There was a format change in 2002. The information in this particular format does not exist for 2002 to 2008.](#)
- (4) A detailed breakdown of cost of sales in RTI's annual statements for 2002-2008, as provided for 2000-2001 in the document produced as RTI188045_CONFIDENTIAL.xls. [Cost of sales information is located in the 10ks at a very high level. Additionally, the cost of sales information is provided in the Locke.xls spreadsheet referenced in \(3\) above. There was a format change in 2002. The information in this particular format does not exist for 2000 to 2001.](#)

Please let me know if you have any questions concerning this request.

Thank you,

3/12/2010

Kristen
